Meeting

- This was the last meeting with the TA, no meeting in week 9.

Presentation

- The presentation will be a video. This needs to be handed in Friday 23.59 the 8th of April

Planning next week

- No new features if everything is finished, make it final. Make sure there are no bugs left.

Deadlines

- This week: No deadlines
- Opportunity to show a trial run of the presentation for feedback, no deadline for this, but of course the presentation is due 23:59 at friday.
- Next week, everything at Friday 23:59:
    o Buddycheck
    o Assignment 5b, **INDIVIDUAL**
    o The code, no changes allowed past Friday
    o Code of conduct
    o Presentation video
- The week after: Final Q&A

Grading

- Code structure
- Tested?
- Logic separated from UI
- Done by a committee consisting of lecturers, Ruben and maybe other TA's

Select server to join

- Not using a hardcoded server string

UI

- The UI should look good and may be fixed
- Code is more important
